Maggie and Ashley,

I came across the following passage on page 2.8-9 (Hazards). I've received previous calls concerning this site from Aspen Environmental regarding the Sunrise Powerlink laydown area on the Rugged site. Please review the Biology chapter with respect to how this area is described and analyzed.

Thanks,
Rob

, and an SDG&E construction laydown area associated with construction of the Sunrise Powerlink 500-kilovolt (kV) high voltage overhead power line [\[r1\]](#), located in the northeast portion of the property west of McCain Valley Road
